

Automation Week Students!

Do you have an innovative idea or project to improve automation in safety, cybersecurity, and decarbonization of industry? Get the chance to get noticed by the main players of the market to the prestigious international Automation week 2021, 20th - 25th September 2021.

This year the summit will be held in a virtual mode and, if allowed, also in presence in Milan area. It will host a great range of conferences, networking events and opportunities dedicated to companies and university students. The best projects will have the chance to have a speech in front of representatives of important companies, and take part of the award ceremony during the Automation Summit (22th-23th September).

Submit a short abstract to: summit@aisisa.it to subscribe and get further information. It must contain a short paper of your idea, references to the team members, universities, and the topic you would cover between:

- Green energy and Decarbonization: technological evolution, hydrogen production and transportation, distribution facilities
- Safety: workforce skills and talent development for higher reliability, new passive and active safety systems.

• Cybersecurity: new cyber security standards, risk-Management, Cyber-attack case studies and solutions.

• Smart Manufacturing: supply chain innovation, predictive maintenance analytics, vertical and horizontal transformation.

Your projects may include new design of industrial IoT, Artificial Intelligence, Virtual reality, Augmented reality, system integration with 5G and many other technologies.
SUBMISSION DEADLINE JULY 31 2021.

Get the most from your ambition and surprise us!
